

## Sample Independence Verification Form for Supervisory Board Members

*Dear Madam/Sir,*

We are handing over to you a form prepared by the Association of Independent Non-Executive Directors (the "**Association**") to facilitate the verification of independence of Supervisory Board Members (Non-Executive Directors) of public companies that are public interest entities within the meaning of the *Law on Statutory Auditors, Audit Firms and Public Supervision*. In the Association's view, the participation of independent Supervisory Board Members is one of the key conditions for effective supervision of a company. Therefore, ensuring effective independence is in the interest of all companies, their shareholders and other stakeholders.

Members of the Supervisory Board who have declared that they meet the independence criteria referred to in the *Law on Certified Public Accountants, Audit Firms and Public Supervision*, as well as in the *Best Practice for WSE Listed Companies 2021* and in the *Best Practices for Public Interest Entities on the Principles of Appointment, Composition and Operation of the Audit Committee*, should be subject to annual verification in this regard. This form may be helpful in conducting this assessment. We recommend that the Supervisory Board perform the aforementioned verification before submitting the Supervisory Board's statement on the appointment, composition and functioning of the audit committee, including the fulfilment of the independence criteria by its members, for the purposes of the annual reports referred to in §70(1)(8) and §71(1)(8) of the *Regulation of the Minister of Finance on current and periodic information provided by issuers of securities and the conditions for recognising as equivalent the information required by the laws of a non-member state*. Ideally, this verification should take place in the form of a debate during a Supervisory Board meeting, based on

the annually completed forms. We also recommend that the completion of the verification process materialise in the form of a resolution adopted by the Supervisory Board, which will include an assessment of the fulfilment of the independence criteria by individual independent Supervisory Board Members. This form can also be used by shareholders to verify their proposed candidates for independent Supervisory Board Members.

We draw attention to the *European Commission Recommendation of 15 February 2005 on the role of non-executive or supervisory directors of listed companies and on the committees of the (supervisory) board (2005/162/EC)*<sup>1</sup>, according to which *"The determination of what constitutes independence is fundamentally an issue for the (supervisory) board itself to determine. **The (supervisory) board may consider that, although a particular director meets all of the criteria laid down at national level for assessment of the independence of directors, he cannot be considered independent owing to the specific circumstances of the person or the company; and the converse also applies.**"*

In situations where there is any doubt about the independence of a person, we recommend that such a person be considered as not meeting the independence criteria.

The form shown below is divided into two parts:

- Part I contains basic information about a particular Supervisory Board Member;
- Part II refers to circumstances that may affect independence. Items 1-10 indicate the criteria that derive from *the Act on Auditors, Audit Firms and Public Oversight*. Item 11 cites the independence criterion from *Best Practice for WSE Listed Companies 2021*. The following paragraphs include other circumstances which, in the opinion of the Association, should be considered in the context of assessing the independence of a Supervisory Board Member; the mere fact of a confirmatory answer to the criteria indicated in this section does not determine the status of independence of a Supervisory Board Member. If you provide a confirmatory answer to any of the questions indicated in the form, please describe these circumstances.
